Soviet Military Quarters and Troops in the Carpathian Mts

25X1A

Town	Installation	Location	Occupation of quarters	Remarks
KOVOL (60°20'N/ 26°40'E)	Barracks (ab ut 820 x 985 feet) 3 4-story buildings (280 x 100 feet each) 2 sheds (355 x 65 feet each)	2 miles nor h of the town, east of the KOVOL-BELIST highway (52°05'N/23°55'E)	Occupation estimated at 400 to 600 troops; 1 colonel and 2 captains were seen. Nine 3-ton trucks loaded with iron orders of 2b to 31 foot length, about 6 foot width, and 3 foot height were parked in the open within the barracks area. More motor vehicles were seen in the sheds. According to fellow's a bridge con- struction unit was stati ned there.	believed by another unit equipped with similar motor vehicles in early June. The soldiers seemed to be older.
ROVNO (50°35'N/ 26°30'E)	1. Barracks (2 three- story yellow brick buildings, partly de- molished). 2. Barracks (1 brick- building, 2 stories, about 100 feet long, damaged)	Exact location is not known (allegedly next to the "electrical punching machine"). 2.5 miles south of KOVOL.	Engineering unit of unknown strength	
	Barracks (10 to 12 buildings, garages)	At the western town border of ROVNO, north of the road leading from ROVNO to DUBN (50°20'N/25°40'E)	Large drawn unit of an esti- mated strength of 1 battalion; recruits were being trained with mortars of 80 and 120 mm caliber. 1 Ltz Arty regt 1 Tank sqpt, allegedly predomi- nantly equipped with "T-43" tan s. The average age of the troops was 20 years. Combined parties were reported.	The barracks were designat- ed as "southern barracks".

ROVNO		1. Large barracks block (4,900 x 5,500 feet, about 20 brick buildings, most of them 4-story buildings)	At the western town border of ROVNO, on either side of the road leading to LUTSK (50°45'N / 25°15'E).	a. Tank units were stationed south of the road; "T-34" tanks, assault guns and armored reconnaissance vehicles, besides several hundred trucks and passenger cars were observed parked in the open and in sheds within the barracks area. b. Motorized infantry units were stationed north of the road; trucks occupied by infantrymen were repeatedly observed. 1 club house and officers' quartering buildings were located towards the town.		
		2. barracks (5 3-story buildings, 4 bunkers)	Southern border of ROVNO, east of the R.R. line leading to STOBUNOV (8 miles south of ROVNO)	Unidentified troop unit; a motorized radio station was seen on the barracks yard. 2 officers' quartering buildings are located between the barracks and the R.R. Line.		
		3.a. Barracks (2-story brick buildings)	Town center, south unit in battalion strength, branch of the "Red Square" and Stalin Street	Branch of service unknown.		[redacted] inferred that these troops belong to the same unit.
		3.b. Military quarters (1 brick building)	In the eastern town sector, near the MVD headquarters	Occupation unknown.		25X1X [redacted] both barracks were occupied by troops of the "Komsomol-Polk".

Town		
KOVEL (51°10'N/ 24°40'E)		

Installation	Location	Pertinent Information	Remarks
1. Ammunition dump	Northwest of the town in the area of four sheds each, marshaling yard.	Dump sector No.VI (German ammunition): 37-mm antiaircraft and anti-tank ammunition. 50-mm antitank ammunition. 68-mm antiaircraft ammunition (stored in 4 or 5 sheds) 100 and 150-mm artillery ammunition. Small amounts of infantry ammunition. Czech 300-mm artillery ammunition. Dump sector No.VII (Soviet ammunition): Ammunition of different calibers of 50 to 150-mm. All sheds were filled to capacity. Emptied sheds were immediately refilled.	The dump sectors VI and VII were being combined as ammunition dumps. The dump sectors I through V were called trans-loading point Karshirka.
2. Engineer depot (more than 50 wooden sheds in 2 rows, spur track with German and Russian gauge, marshaling station Total extension about 3,300 x 3,300 feet).	Northwest of the town in the area of the marshaling station (see Annex 1, No.2).	Engineer equipment, signal equipment, motor vehicle engines, horse drawn vehicles, RR construction material was stored in the sheds. Motor boats with outboard motors were loaded on trucks, numerous trucks, including trucks with trailers which were equipped with construction parts of 62 to 32 foot length and RR construction material was stored between the sheds.	All the RR construction material is of German origin. 50 percent of all other materiel are German. About 100 RR cars loaded with rails were shipped towards BREST in May 1948.
Supply depot (3 rows of sheds with a total of more than 100 sheds, 165x 100 feet each, concrete floors, three spur tracks).	Northwest of the town in the area of the marshaling yard (see Annex 1, No.3)	a. Food stuffs were stored in about 20 sheds, distribution from 5 sheds. b. Engines and spare parts for tanks and motor vehicles were stored in numerous sheds
